General Information

What

The Envirothon program is a competitive event for middle school teams of 5 students to compete in a natural resources knowledge and ecology field day against other middle school teams. It stimulates, reinforces and enhances students' interest in the environment and our state's natural resources.

Resource subject areas are: Soils and land use, Forestry and plant life, Wildlife and habitat, Aquatics and water quality, and Current Environmental Issues including air quality and the impact of climate change.

An entire school class or group may participate in studying the resources, however only 5 members may be on a team taking the test. Each team must have an advisor, and each team can have up to 2 alternates. Each class or school may have as many teams as they wish. However, each team will have to be registered.

There will be a resource station set up for each of the subject areas (Soils, Forestry, Wildlife, Aquatics, and Current Environmental Issues), in an outside setting, where the teams will be given an exam on each of the resource subjects. The team with the highest score will be declared the State winner. Each written test will last for 25-30 minutes and will have approximately 25 questions. These questions are answered as a team and not as individual students. After finishing one station and at a set time, the teams will rotate to the next station. The test papers are graded and the scores totaled to select the winner.

Test Stations

The five test stations will likely cover the following topics, but are not limited to these:

Wildlife.	Wildlife ecology, habitat, identification, species interaction, foods, diseases, conservation and management.
Aquatics.	Aquatics covers ecology of water, water quality, plants and animals living in or around water, pollution, wetlands, water quantity, and conservation.
Forestry.	Forestry covers tree identification, forest history, ecology, insects, diseases, parts of plants, role of fire, and forest measurements.
Soils.	Soils covers classification, erosion, soil surveys, site suitability, current issues, profiles, soil characteristics, soil ecology, and conservation practices.
Current Environmental Issues.	Current Environmental Issues cover any current or newsworthy environmental issue including air quality and climate change.

Professionals from cooperating agencies and/or independent environmental organizations will conduct the station testing.

Who can compete

Competition is open to Ecology clubs, Girl Scouts, Boy Scouts, soil-judging teams, 4H clubs, home study groups, environmental groups, Vo-Ag groups, or any group interested in competing. All team members must be middle school grade students - grades 5-8. Teams must be from the same school. An exception is made for home study groups, scout groups, 4-H teams being from the same school; however, they must be from the same general area. An advisor is required at the competition for each team.

When

The State Competition is usually held in April or May. **The 2011 North Carolina State Envirothon will be held Friday April 29 through Saturday April 30.** All teams must attend an Area Envirothon and qualify by placing in top seven scoring teams to attend the North Carolina State Envirothon

Where

The State Envirothon will be held at Cedarrock Park in Alamance County. (see map on page 22)

Registration

Each of the eight Areas of the NC Association of Soil & Water Conservation Districts will have a structured registration program for the eight Area Envirothons. Your local Soil & Water Conservation District can assist you in registering your team for the Area Envirothon (see list of Districts included in back). There will be seven teams from each Area competition to advance to the State Envirothon Competition.

There is a \$50.00 participation fee for each of these seven teams advancing to the State Competition.

This \$50.00 participation fee is payable to the NC Association of Soil & Water Conservation Districts (NCASWCD). Checks for middle school teams should be mailed to Sandra Weitzel (see page 3). Many times the local Soil & Water Conservation District will help pay the participation fee.

Resource Information

Once a team has made contact with your local Soil & Water Conservation District (see telephone numbers pages 18-21), a resource packet containing natural resource information will be sent to each advisor to use in preparing their team/teams for the competition. Your local Soil & Water Conservation District can also assist the teams in securing additional information/resource people to help train the students. **Questions on the tests will come from the resource material or from materials presented at the training station on Friday at Cedarrock Park.**

Registration Day at the State Middle School Envirothon

Registration at the State Competition event will be from 1:00 p.m. to 2:30 p.m. on Friday, April 29, and from 8:00 a.m. to 9:00 a.m. on Saturday, April 30, 2011.

Station Training at State Middle School Envirothon

Professionals give a short training session at each station at the State Envirothon on Friday afternoon. The Middle School stations are in a field under tents. Students and Advisors may bring camp chairs, stand, or can sit on the ground. Those standing and with chairs are asked to arrange themselves toward the rear so that others may gather on the ground in front. Advisors are asked not to ask or answer question during the training session. The training session is for the students. No one except students and advisors will be allowed at the training stations or on the field. Other parents, children, and guests are asked to enjoy other parts of this wonderful county park during the training sessions.

These Presentations are not set up to give the test answers to the students. Students are expected to have studied all topics prior to coming to the Envirothon. The Presenters are asked to cover some of the material covered by exam questions but not to cover just the test. This is a good time for the teams to ask questions of the professionals if there is something that you do not understand.

The Presenters are also told that if they have a question that is not in the resource material that teams were given to study, that they can ask the question as long as they cover the material during their Friday presentation.

Team Sponsor

Teams must secure the local Soil & Water Conservation District to sponsor the team. The sponsoring District may or may not be able to pay your participation fee. If for some reason the local District does not wish to sponsor your team, contact Sandra Weitzel and ask that the State Envirothon Steering Committee sponsor your team. The State Committee will not pay your team's registration fee. A list of Soil & Water Conservation Districts is included in this packet.

Team Size

Maximum team size to compete is five (5) members. If a team has less than five (5) members to show up, it will be allowed to participate. Schools may send more than one team to the Area competitions depending on the Area Envirothon's rules, however each team must register separately (see page 5 Registration).

A middle school team may have up to two alternates at the state competition. However, alternates may not be allowed to participate in Area competitions if the Area does not allow alternates.

Typically, alternates from different teams are allowed to form teams to participate in the testing. Teams made of alternates are not allowed to place for prizes.

Awards

After lunch, there is a brief awards program to announce the winners, present certificates, and recognize the financial contributors and important guests.

Awards for state competition are as follows:

First Place \$100.00 cash, and a plaque

Second Place \$75.00 cash, and a plaque

Third Place \$50.00 cash, and a plaque

Fourth Place \$35.00 cash, plaque

Fifth Place \$25.00 cash, plaque

Community Service Learning Project Middle School Winner Plaque

Medallions will be awarded to each member of the team having the highest score at each station. The Area awards will be different than the state awards.

Grievance Policy

A Grievance Committee has been established to hear complaints on teams not following the rules, cheating, etc. Please inform your team members that if they wish to make a grievance or complaint, that this must be done as soon as possible and before the winners are announced. The guides at the stations are available to take grievances. They should be written down by the guide to present to the Grievance Committee.

Visitors

Visitors are welcome. Please contact Sandra Weitzel, Middle School Envirothon Coordinator (919) 791-4310, so enough food can be prepared. All visitors will be given a visitors' ribbon for identification. There may be a meal charge for visitors.

Meals

Two meals are provided during the competition, dinner on Friday evening and lunch on Saturday. Meals are usually quick foods and may include hot dogs, hamburgers, pizzas or cold cuts. If anyone cannot eat the meals provided or have special dietary needs, they should plan to bring their own food and cooler to store it.

Parking

There will be an area set aside for parking, and we will have someone directing traffic. Please park in the designated areas. A separate area for bus parking should be provided.

Certificates

Certificates will be prepared for each participating team for the state competition. Please, send the names of all team members, spelled correctly, and the parental consent/medical information forms as soon as possible when registering for the Area Envirothon competition. The certificates will be presented the day of the competition or may be mailed after the event.

Motel Information

For those teams coming in Friday and are not camping, there is a list of motels in this guide (see page 18). Because there are often other events that may compete for area motel rooms, please make your reservations early. Reservations can always be cancelled later.

Camping

For the state competition Cedarock Park allows tent camping in designated areas for a small fee. Camping can be an additional learning experience for your team. If your team wants to camp at the park contact Phil Ross, Alamance Soil & Water Conservation District at (336) 228-1763 ext 3.

Teams Traveling Together

Some teams may want to car pool or vanpool in order to save on transportation costs. If you do and would like to have a contact person for other local teams, please contact your Area Envirothon contact person.

Weather

The competition will be held outside regardless of the weather. Bring appropriate clothing and shoes. Please bring sunscreen, hats, and water bottles for warm and sunny weather. There may also be early morning dew on the field's grass. Please bring rain gear if rain is possible.

Dress

Do not wear any item of clothing or anything else that may identify your team by city, county, or school. Team members will be given North Carolina Envirothon t-shirts.

First Aid

A registered nurse will be on site at the state competition to handle emergencies. The nurse looks at the medical consent form to make sure that she has supplies of any needed medicines before the competition begins. This is why it is important for the teams to send back their medical consent forms on time and for the Areas to forward them to the State Middle School Envirothon Coordinator.

Envirothon Community Service Learning Projects

The Department of Public Instruction is requiring school programs like advanced courses of study to have each student to do a service project as part of the requirements for them to graduate. Some counties now require seniors to do a project before they graduate. The Envirothon Committee voted to start a voluntary Envirothon Community Learning Service Project program as part of the Envirothon.

1. Open to High School and to Middle School Envirothon teams.
2. The program is voluntary for participation but teams must compete in their Area Envirothon but are not required to qualify for State Envirothon.
3. Envirothon teams will design and develop a community type project and carry it out during the school year.
4. It can be a physical project, a service project or a data-sharing project.
 - A. **Physical project** (e.g. outdoor classroom, nature trail, wildlife habitat development, small pond for school use)
 - B. **Service project** (e.g. Envirothon team teaching younger students, picking up litter along a designated stream, starting a recycling program in school)
 - C. **Data sharing project** (e.g. presenting data on effects of storm water runoff on the environment; keeping data on a stream or pond as to water quality parameters such as DO, pH, macro-invertebrates found, putting this information into a poster paper and presenting it.)
5. Project has to be written up in a format with enough detail that a layman can understand what your mission and goals were. It can include graphs, pictures, posters, etc.
6. A fifteen-minute minimum presentation of the project must be made to a public body or a meeting of people from the community. Such as a Community Service Organization --Lions Club, Rotary Club, or a public body such as Soil and Water Conservation District Board or County Commissioners meeting.
7. Videotape the presentation and send it in to be judged along with the write up of the project.
8. Deadline is March 1, 2011.
9. Plaques will be given to the best ones at the awards ceremony on Saturday.
10. Videos from Middle School Envirothon Teams should be sent to Sandra Weitzel, Division of Soil and Water Conservation, 3800 Barrett Drive, Raleigh, NC 27609.

Area Envirothon Contacts

The contacts for the Area competitions are:

Area 1- (counties--Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey)

AREA ENVIROTHONS COMPETITIONS – Dates & Places

Area 1 Envirothon—March/April 2011—Western North Carolina Research Station, Waynesville, NC

Area 2---Northwest Envirothon---March 31, 2011--- Edwin McGee Natural Resource Center, Wilkesboro

Area 3 --Piedmont Envirothon—March 24, 2011---Elon University, near Burlington, Alamance County

Area 4 Envirothon—March 26, 2011---Johnston County Ag Center, Smithfield, NC

Area 5 & 6--Coastal Envirothon—March 23, 2011—Weyerhaeuser Cool Springs EE Center, Craven County

Area 7 Envirothon—March 31, 2011— Lake Waccamaw State Park, Columbus County

Area 8 Envirothon—March 29, 2011 (Middle School) & March 30, 2011 (High School) Catawba College's Environmental Education Center, Salisbury, Rowan County

Middle School Envirothon Rules

1. **Only** students in grades 5 through 8 are eligible to compete.
2. All team members must be from the same school, home study group, scout group, or 4-H group.
3. Each team will consist of no more than five members.
4. Teams must be accompanied by an adult team advisor to the competition.
5. During the Saturday testing competition, the advisors may not travel with the teams and shall not assist their teams in any manner. No advisors or spectators are allowed in testing areas on Saturday morning.
6. No electronic recording, no digital cameras, no taping and no picture taking on Friday afternoon during training sessions. **No cell phones are allowed** at the resource stations.
7. Advisors will be responsible to assure that teams display proper conduct during the competition and at the host facility. Team members, advisors, and guests will be respectful of everyone.
8. Drugs and alcohol are NOT permitted during any part of the competition or on the park grounds.
9. No clothing or other identification of local schools, towns, cities, or counties will be permitted at the resource stations.
10. All identification keys to be used will be furnished by the State Envirothon Committee. Biltmore sticks used in the competition will be provided to the teams at the Forestry Station.
11. The winning team will be the team with the highest cumulative point total. Certain questions will be pre-selected as tiebreakers. The tied teams will have their pre-selected questions compared until the tie is broken.
12. Rules & regulations of the Envirothon are subject to change. Any and all changes will be explained in advance to all teams and advisors.
13. Once the teams are registered on the day of the event, alternates may not be substituted for team members unless it is an emergency. (Names listed on the pre-registration form may be changed prior to the event.) Each Middle School team can have no more than 2 alternates.
14. The judges' decisions are final on all events.
15. All grievances must be reported before final judging. The grievance committee will handle all grievances.
16. Advisors must send each team members' medical and photo release forms to Area Envirothon Committee when registering for the Area Event.
17. Each Area will submit **all registration and medical forms** with names of the team members **and score sheets** from that Area showing teams and members eligible to compete at the state competition along with a copy of the medical consent forms to the State Middle School Coordinator as soon as possible after the Area Competition.
18. All teams must participate at an Area competition and be one of seven (7) top teams chosen to go to the state competition before competing in the state event. **Only the top 7 scoring teams will be allowed at the State Envirothon.**
19. Substitutions may be made on a team selected to go to the state competition, but there must be at least three (3) original team members able to compete at the next level.
20. Violations of these rules can result in the disqualification of a team or a lesser penalty

Dear Parent/Guardian:

The law requires that parental permission be obtained for medical procedures performed on minors (under age 18). This consent form should be signed by the parents / legal guardians so that such procedures can be promptly carried out. We will make a genuine attempt to notify you in case of a serious emergency.

I, the undersigned parent/guardian of _____, hereby give permission to the attendant staff to perform such diagnostic, therapeutic, and operative procedures for him/her as they deem necessary, and refer him/her to a physician when deemed appropriate. I further give my permission to have my son/daughter treated by a physician and perform any diagnostic, therapeutic, and operative procedures they deem necessary. My child has my permission to participate in the Envirothon.

Signature of Parent or Guardian
